## FAQs

### Can I browse the plant list before the sale begins?

Yes. Plants are available to preview online from April 7 to 11. As a reminder, plants won't be available for purchase during this time.

### How do I get my member password for Saturday's online sale?

Members will receive an email with their members-only special password beginning in early April, with a final email the day before the online sale opens. This password is needed to enter the site to shop on April 12. Can't find your password? Check your spam folder. Please do not share your password with anyone.

### I'm having trouble accessing the online sale site. What do I do?

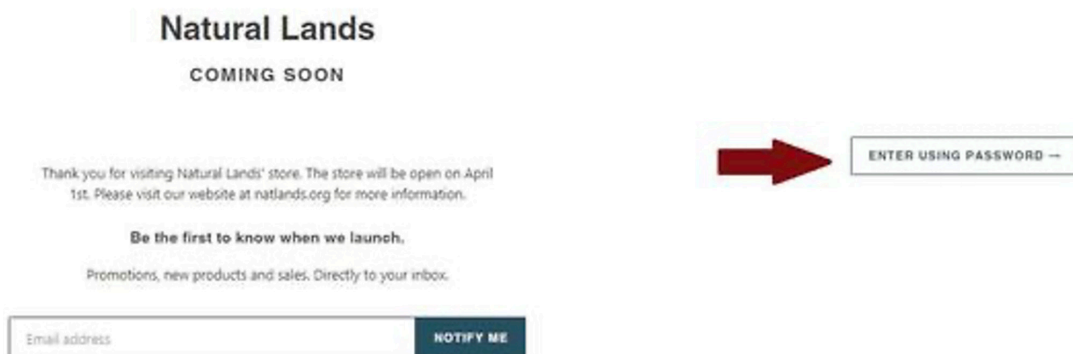

Try a different browser. We recommend using Google Chrome or Firefox.

### How do I make sure I get the plants I want?

Plants sell out very quickly. Adding plants to your cart does not hold them for you. We recommend buying the plants you really really want first, and then coming back to place another order.
